

## **Vandalization of Teacher's Property**

Should an automobile belonging to a member of the teaching staff be vandalized on school property during a school function or any other authorized school assignment, the school district will pay the difference between what is recoverable under the teacher's automobile insurance policy and the actual bill to restore the motor vehicle to its original condition prior to being vandalized. Reimbursement from the district for such damages shall not exceed \$250.00.

Should vandalism occur during a vacation period, the district will assume no obligation for the damages.
